OBJECTIVE

A motivated and curious B.Tech student in Artificial Intelligence and Data Science, seeking to leverage my technical skills and internship experience in real-world projects. Passionate about building innovative solutions and continuously learning in the tech field.

EDUCATION

Bachelor of Technology , M.A.M College of Engineering	2023- 2027
Artificial Intelligence And Data Science	Tiruchirappalli
HSC , Everest Matriculation School	2022-2023
Percentage - 74.5	Tenkasi

SKILLS

Programming Skills	Python
Tools & Platforms	Power BI, MySQL, MS Office ,Microsoft Azure ,Google Cloud, Canva,VS Code, Jupyter Notebook
Technical Skills	Data Visualization, Data Modeling, Data Cleaning & Preparation, Machine Learning.
Interpersonal Skills	Critical thinking, Resilience, Cross culture communication, Collaboration, Presentation.

PROJECTS

Face Recognition Attendance System

- Built a real-time face detection & recognition app using Python, OpenCV, and FaceNet to automate attendance logging with 98% accuracy.

Smart Document Analyzer

- Built an AI tool to extract and summarize document data using Azure Document Intelligence and NLP, improving processing speed by 40%.

Artificial Intelligence Learning & Application

-Worked on an AI-focused project during internship, gaining practical exposure to AI concepts, real-world applications, and industry practices while improving problem-solving and analytical skills .

EXPERIENCE

Internship Trainee

Artificial Intelligence

Mandlac Technologies Private Limited | Dec 2025 – Jan 2026

- Completed an internship focused on Artificial Intelligence concepts, learning methodologies, and real-world applications.
- Demonstrated strong curiosity, dedication, and problem-solving skills while gaining hands-on exposure to industry practices and professional work environment

AI and ML Intern

TechShiksha | June 2025

- Gained hands-on experience in **Python for AI/ML**, including data preprocessing techniques such as handling missing values, feature scaling, and categorical encoding.
- Built and evaluated basic **supervised machine learning models**, understanding end-to-end ML workflows and improving problem-solving and coding skills using practical datasets.

Data Analysis Intern

Nizcare Private Limited | Jan 2026 – Present

- Assisted in healthcare operations and data analysis tasks in a professional work environment.
- Gained hands-on experience in teamwork, problem-solving, and healthcare technology solutions.

ACHIEVEMENTS

- Completed Microsoft Responsible Generative AI Certification.

- Completed Python Programming Training.
- Applied AI & Machine Learning concepts in academic projects.
- Developed strong Data Analysis and Problem-Solving skills.
- Gained hands-on experience with real-time projects and teamwork.
- Improved technical and analytical skills through practical learning
